· Desiree Hare, Praesignis—

Facilitator/Manager

063 703 7380,

desiree.hare@praesignis.com

- Following Scrum practices to develop the app in a team of 4.

PROJECTS

2022: Black-Jack-Game

<https://comforting-pony-6ed839.netlify.app>

GitHub Repository: <https://github.com/phelisa2020/Black-Jack-Game>
Black Jack is a Blackjack is a casino banking game. It is the most widely played casino banking game in the world, it uses decks of 52 cards and descends from a global family of casino banking games known as Twenty-One. I build it using javascript.

2021: BUDGET APP -

<https://budget-app-2.herokuapp.com/>

GitHub Repository: <https://github.com/phelisa2020/hacktor> Budget app allows you to make a monthly budget to save money. By putting all your monthly expenses then it will tell you the money that is left. Our focus was on the students who spend their money carelessly. This app was built using ExpressJS, NodeJS. It was deployed on GitHub and Heroku, using Git and GitHub. This was a team project for the Hackathon.
